

# Hello, Long-Suffering SRCD Subscriber!

The enclosed discs complete the third subscription. Thank you once again for your patience!!! Renewal subscriptions will be accepted through July 15. The subscription is \$50 and will cover a total of 13 titles.

The forthcoming subscription will probably be the last, I've pretty well decided to stop releasing material on Mutant Pop. While I may well change my mind between now and then, the label has pretty much stopped being fun for me and I wanna get out before I start to really hate it. All 13 titles should be on the street by the end of 2002. The SRCD series will number a nice, round 50 titles at that point — it seems like a good place to stop.

Please rate the SRCDs that were part of this series — whether you choose to renew or not, this information will be helpful to others trying to decide what rocks and what sucks... **PLEASE CIRCLE A RATING FOR EACH. THANK YOU!!!**
